

Darci has been a practicing urban planner in the state of Oregon since 1998. Her extensive experience with Oregon's land use planning system has been gained in part through public involvement, policy development, and code writing associated with multiple state, regional, and local transportation-related projects. Darci's experience with planning agencies at all levels of government gives her a diverse background that includes long range and current land use planning, economic development, community revitalization, and policy development.

Darci's local jurisdiction experience includes managing the comprehensive plan and TSP updates for the city of West Linn. As a planner for the Department of Land Conservation and Development, Darci served as a technical advisor during the update of local transportation plans and evaluated TSPs, specific corridor plans, and access management plans against state and regional requirements. More recently, Darci has participated on several project teams that developed Interchange Area Management Plans throughout the state of Oregon. Her most recent policy work includes reviewing

and drafting amendments to the Oregon Highway Plan and the state's Transportation Planning Rule.

EXPERIENCE AND RECENT PROJECTS

EXPERTISE:

Land Use Planning

Public Involvement

Transportation System Plans and
Corridor Plans

Economic Development
